

MERIEM HAMOUCHE

PROFILE

Currently a 4th-year Software Engineering student, I have completed several hands-on academic projects, including desktop applications, dynamic websites, and management systems with database integration. I also completed an internship in an IT department, which gave me valuable exposure to a professional environment and helped strengthen my skills. Alongside my studies, I have pursued hybrid training in areas such as design, web development, and digital tools. Through my involvement with AIESEC, I have developed strong communication, leadership, and teamwork skills. Curious, detail-oriented, and versatile, I am eager to contribute my skills to meaningful and innovative projects.

EXPERIENCE

IT Intern – IT Department (DSI)

Cevital – Béjaia, Algeria
March – April 2025 (15 days)
Observation and introductory internship within the IT Department. Explored various units (infrastructure, support, development, networks) and gained an understanding of how a large corporate IT service operates. Contributed to technical monitoring tasks and analysis of internal tools.

Exchange Participants (EP) Manager – OGX Department

AIESEC – Béjaia, Algeria
2024–2025
Strategically selected international opportunities for exchange participants, based on a deep analysis of their CVs and discussions of their goals, aligning placements with individual needs and preferences.

Web Development Intern

Prodigy InfoTech – Remote
February 2025
Completed assigned web development tasks. Delivered project-based assignments and improved practical skills through real-world application.

English Tutor for Children (Current Position)

ECA SCHOOL – Béjaia, Algeria
Since June 2025
Supporting primary school children in learning English through interactive methods, including oral and written expression, comprehension, and vocabulary enrichment. Developed teaching skills, patience, and age-appropriate communication techniques.
